1.0 Warranty conditions

The five-year Eminent warranty applies for all Eminent products unless mentioned otherwise before or during the moment of purchase. When having bought a second-hand Eminent product the remaining period of warranty is measured from the moment of purchase by the product's first owner. The Eminent warranty applies to all Eminent products and parts inextricably connected to and/or mounted on the main product. Power supply adapters, batteries, antennas and all other products not integrated in or directly connected to the main product and/or products of which, without reasonable doubt, can be assumed that wear and tear show a different pattern than the main product are not covered by the Eminent warranty. Products are not covered by the Eminent warranty when exposed to incorrect/improper use, external influences and/or when opened by parties other than Eminent.

2.0 Introduction

Congratulations on your purchase of this high-quality Eminent product! This product has undergone extensive testing by Eminent's technical experts. Should you experience any problems with this product, you are covered by a five-year Eminent warranty. Please keep this manual and the receipt in a safe place.

2.1 Functions and features

Because of 10 distinctive power plugs the laptop charger is suited for almost any laptop or TFT monitor equipped with a stand-alone power adapter! This useful charger also has a USB port which enables you to charge almost any USB device (telephone, MP3 player or media player).

2.2 Packing contents

The following parts need to be present in the packing:

- EM3973, Universal Laptop Charger 100W.
- Power cable.
- 10 power plugs.
- Manual.

2.3 Before you begin

1. Verify that you have set the laptop charger to the correct voltage for the device you are using it with.
2. Eminent is not liable for any damage, directly or indirectly, resulting in the use of the laptop charger.
3. Only use the provided accessories in order to avoid damage.
4. Disconnect the laptop charger from the power outlet when not in use.
5. Do not use the laptop charger in combination with devices that require more than 100 Watts of power.

3.0 Using the laptop charger

Follow the instructions below to use the laptop charger.

1. Check the power input required by the device you are connecting the laptop charger to. You can find this information on the device itself or on the device's original charger.
2. Select the correct voltage by using the switch located on the side of the laptop charger.

Attention! If your device uses less than 14 volts, it is not recommended to use it in combination with the charger.

3. Select the correct power plug and connect it to the extension plug of the laptop charger.
4. Connect the extension plug with the power plug to the device.
5. Connect the supplied power cable to the laptop charger.

6. Connect the plug of the supplied power cable to a power outlet. The power LED on the laptop charger will blink.
7. Switch on the connected device. The power LED on the laptop charger will now stop blinking and stay lit.

3.1 Using the USB port

The laptop charger is fitted with a USB connector that allows you to connect a USB device. The USB connector supplies 5 Volt @ 1 Ampere and can be used to charge USB devices such as mobile phones, MP3 players or media players.

4.0 Frequently asked questions

Q: The power LED on the laptop charger is blinking continuously. What does this mean?

A: The LED will blink when there is no device connected to the laptop charger, or if that device is not using any power. If you have connected a device to the laptop charger and it is turned on, the LED should stop blinking and stay lit. If this does not happen, the laptop charger, or the connected device could be defective. You may need to contact the supplier of the device.

Q: The power LED on the laptop charger does not light up.

A: Check if there is power on the outlet you have connected the charger to. You can try connecting the laptop charger to another power outlet.

Q: The connected device does not receive power from the laptop charger.

A: Check if the correct voltage is selected and if you are using the correct power plug.

Q: My device requires a voltage that I cannot select on the laptop charger.

A: Select the closest lower voltage. Example: Your laptop needs 17V, select 16V. Do not connect devices that use less than 14 volts of power.

5.0 Service and Support

This users manual has been carefully written by Eminent's technical experts.
If you have problems installing or using the product, please fill out the support form at the website www.eminent-online.com/support.

Declaration of Conformity
